

Repairable 90 in³ Diaphragm Accumulator

- 90 in³ volume built for high-performance hydraulic systems up to 3625 PSI
- Rugged carbon steel shell for high-pressure durability
- Buna-Nitrile diaphragm is compatible with a wide range of hydraulic fluids and temps
- Easy to install in space-restricted environments

Technical Parameters	
Nominal Size	90 in³
Gas Volume	92 in³
Pressure Rating	3625 PSI
Canister Material	Carbon Steel
STD. Fluid Port	¾"-16 SAE
Diaphragm Material	Buna-Nitrile (NBR)
Weight	15 lbs.

Dimensions	
A	11.4 in
B	4.5 in
C	10.5 in
D	1.3 in

About

Reliable 90 in³ diaphragm accumulator built to maintain pressure and absorb shock for smooth hydraulic system performance.

Includes:

- ✓ 1 x Carbon Steel Diaphragm Accumulator
