

# Overview

## Description

The P297 is a compact stainless-steel float-type level switch designed for precise liquid level detection in various industrial applications. Its durable construction and high-temperature resistance make it suitable for environments requiring reliable performance.

## Technical Parameters

<b>Material</b>	Stem	SUS304
	Float	SUS316L
	Stopper	SUS304
	Nat	SUS304
<b>Specifications</b>	Temperature Range (Atmospheric)	-40°C~+120°C
	Pressure Resistance (Room Temperature)	1MPa
	Float Specific Gravity	0.5±0.07
<b>Electric Specs</b>	Maximum Contact Capacity	10W DC/AC
	Maximum Voltage	100V DC/AC
	Maximum Current	0.4A DC/AC
	Wire Length	300mm Standard (Custom lengths available)
